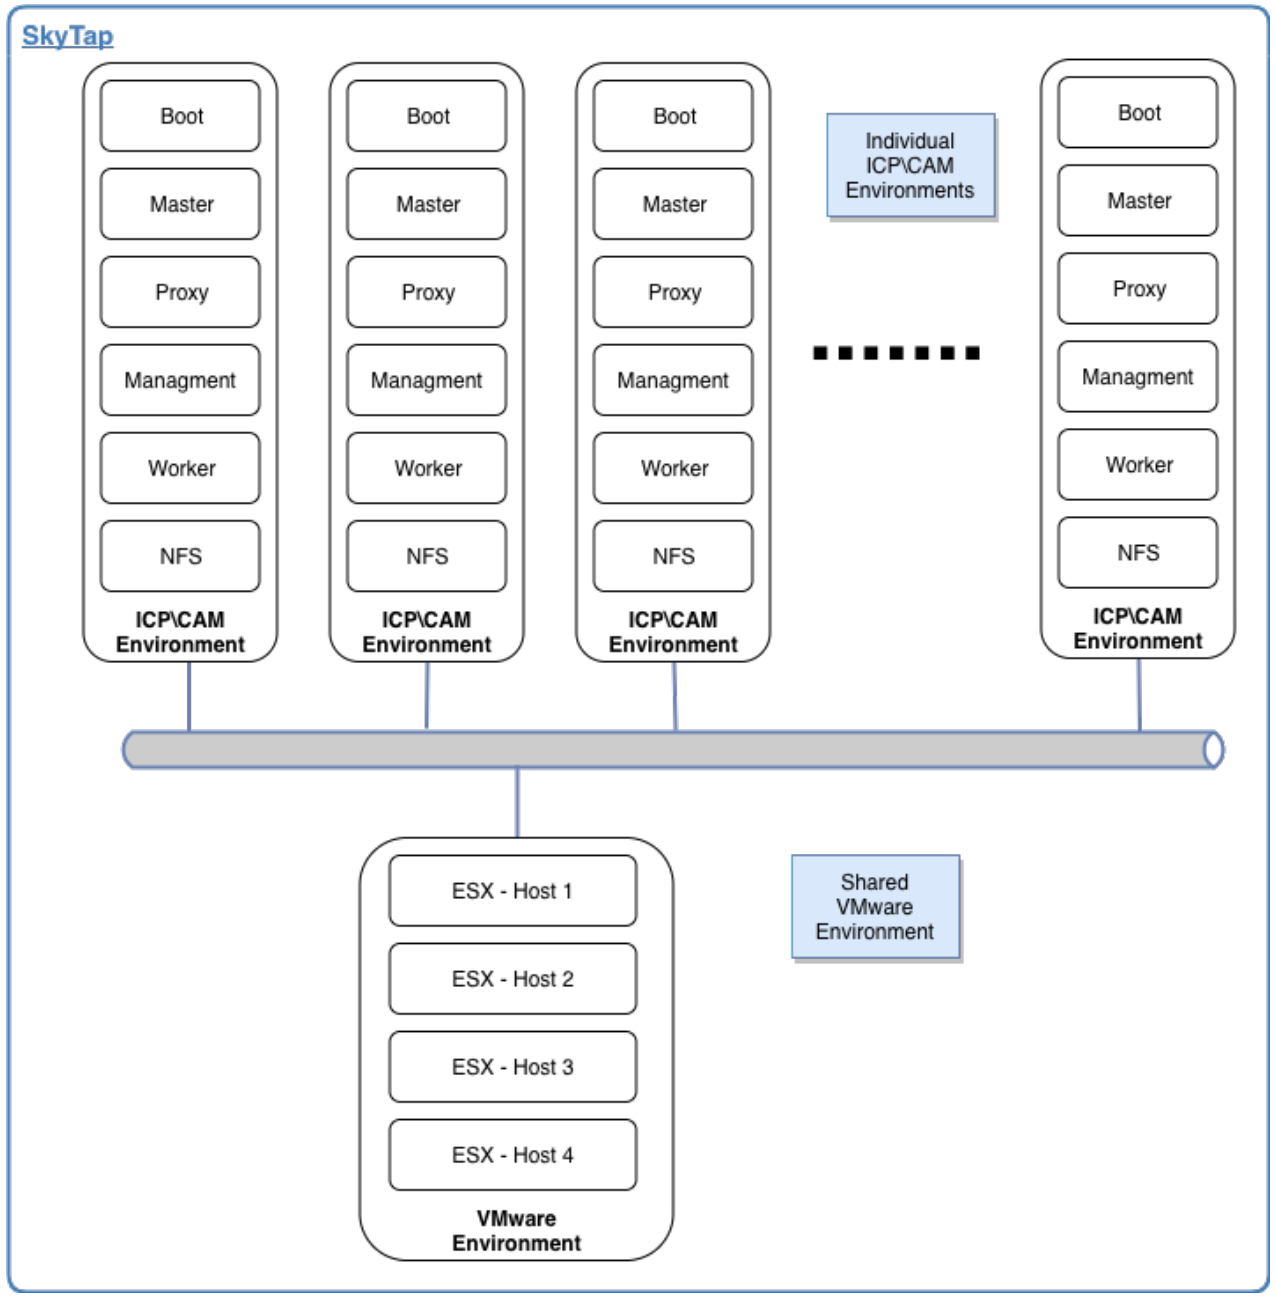
SkyTap environments

Lab Overview

SkyTap Environments

- Each student will have their own ICP\CAM environment based in SkyTap
- There is a single shared VMware environment that all the students will use
- Labs will be posted on public Github to minimize UI issues
- Environments will be made available from 8AM to 8PM
- Labs and SkyTap environment is based on ICP 3.1.2 and CAM 3.1.2
- SkyTap environments have internet access

SkyTap Overview



Course Completion
